

How to Order a StoreCom

StoreCom offers so many color, handset and transmitter options that we needed to come up with an easy way for everyone to order. This sheet should clear up any questions you should have.

HOW TO USE THIS TABLE

First choose the Series - 2 for 200 series 3 for 300 series. Then choose the number of channels and busy lights, the microphone, color and any type of special handset or microphone. Transfer the letters to the lines below and there is your model number. Spade to Spade is our standard cord so no special indicator is needed. A \$ after an option means there is an extra charge for adding this option. Any special order option will be added to the end of the model number.

SERIES	+ BUSY LIGHT CHANNELS	+ G	+ MICROPHONE	+ COLOR	+ CORD	+ SPECIAL MIKE	+ SPECIAL HANDSET	
2=200	01=0 Busy		C= Carbon	B=Black	Spade to Spade	NC=Noise	PTT=Push	
3=300	1 Chan		E=Electret	R=Red	M=Modular	Cancel\$	To	
	02=1 Busy		<div style="border: 1px solid black; padding: 5px; text-align: center;"> Insert a "C" between mike and color for a Cradle Intercom </div>		15=15' Cord\$		Talk\$
