

200GCBB

Universal Single Intercom Channel with Buzzer

This Sleek wall mount unit provides one intercom channel for efficient operations. No codes to remember, no annoying tones over the PA speakers, no computer to program and best of all easy on your budget. The 300 Series has Simultaneous paging allowing overhead paging even when the intercom channels are in use with no interruption. Our top mounted channel selector switch is metal, sealed and guaranteed for thousands of uses. The Magnetic Hook Switch eliminates all moving parts in our cradle. This switch provides an efficient, noise free, smooth, silent hangups. The new "Plug N Page" feature eliminates the springs used in the past - the RJ 45 plug and jack allow for smooth, corrosion free connections. Plus - all of our models are available in standard Ash, bold Black and raging Red. Used as Point-to-Point communications, entry phone or anywhere you need to communicate from one area to another area.
